SMART AIR PURIFIER

MODEL: AP-L2-S200

USER MANUAL

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

ETL Saefety Notice

This product is ETL Listed and has been tested to comply with applicable safety standards in the United States.

The ETL Mark is proof of compliance with nationally recognized standards, including UL 507 (Standard for Electric Fans and Air Cleaners).

Product Overview

Welcome to the user manual for the Antop Pet Air Purifier. We appreciate your purchase and you can expect the best performance for removal of all airborne problems Indoors.

Package Content:

• Floor-standing Air Purifier*1	• Power Adaptor*1	• User Manual*1
• 3-in-1 Air Filter(inside)*1		

Getting Started

1. Power On

Connecting the power cable to the bottom power port. Then, plug it into a suitable power supply.

Note: Your Air Purifier comes with the filter pre-installed, but it with polybag package.

2. Product Placement

Ensure that the air inlet maintains a certain distance (20cm or more) from walls, furniture and other shielding objects.

Note:

If the air quality is poor, please use the air purifier after closing the doors and windows.

If the outdoor air quality is good, it is recommended to open windows frequently to ventilate the house.

Wifi Function

Follow these simple steps to complete the wifi setting:

1. Turn on your air purifier, then press and hold the WIFI button on the display panel for 3 seconds until it beeps.
2. Ensure your mobile phone's WIFI, Bluetooth, and locate services are enabled. Then connects to WIFI (only 2.4G WIFI can be used, not 5G WIFI)
3. Download the Smart Life"/"Tuya" APP from Google Play or App Store and create an account within the app.
4. Press the "+" icon on the top right to add a new device.
5. The app will automatically start scanning for the device after entering the connecting WIFI password.
Follow the instructions to complete the pairing process.

Filtration Technology

1.Pre-Filter

Captures particles in large size, such as hair and dust.

2.HEPA13 Sterilization Filter

Traps microscopic particles down to 0.3 microns in size like dander, PM2.5, bacteria, mold, dust and mites.

3.Activated Carbon Filter

Removes various odors, such as urine odor, feces odor, VOCs and also allergen.

Filter Lifespan

Each filter is designed to last 6-8 months with regular use of 8 hours per day (equivalent to 1500 hours).

Filter Changing Guide

 Be sure to turn and power off the purifier before performing the following operations

1. Turn counterclockwise to open the bottom cover as indicated by the bottom cover switch and take out the filter

2. Take out a new HEPA filter and unwrap the package. Remember to check if there's any damage to the filter.

3. Install the filter back and close the bottom cover according to the original operating path. Now the replacement is complete.

4. Press and hold the Filter Reset Button up to 3 seconds to reset lifetime of filter.

Product Specification

Product Name	Desktop air purifier	Rated Voltage	DC 24V
Model	AP-L2-S200	Rated Power	30w
Size	φ 260*478mm	PM2.5 CADR	360m³/h
Net Weight	3.5kg	Noise	33dB(A)-48dB(A)
Application Area	30-40 m²		

Troubleshooting

Not working

1. Check that the power adapter is connected and is the correct rating.
2. Make sure the filter cover is sealed.
3. Check that the Filter is fitted properly into filter chamber.
4. Ensure the front panel and the air purifier unit are undamaged.

Abnormal pollutant smells, loud noise when runing

1. Check that there are no foreign items in the area where the fan is located.
2. The combination filter may be clogged and its replacement may be necessary.

Insufficient air flow

1. Check that the filters are clean.
2. Check that the inlet and outlet are not blocked.

Safety Information

Installation

1. If the cover located on the back is not installed correctly, the air purifier cannot start.
 2. The air inlet should be more than 20cm away from the wall and other shielding objects.
-

Cleaning

1. Regularly clean the dust at the air inlet hole is conducive to prevent the decrease of air inlet volume.
 2. Please use a damp cloth to gently wipe the surface of the machine, avoiding water entering the machine
-

Power Supply

Please follow the following instructions to use power cords and sockets to avoid fire, electric shock, or damage:

1. Do not excessively pull, twist, or bend the power cable. Otherwise, the core of the cable may be exposed or broken.
 2. It must be connected to a power socket that fits the power cord plug.
 3. Please don't use power adapter of other brands
 4. Be sure to disconnect the power supply before performing maintenance operations or moving the air purifier.
 5. If the supply cord is damaged, it must be replaced with one purchased from its manufacturer or service department.
-

Usage:

If the product has abnormal sound, peculiar smell, high temperature, or irregular fan rotation, stop using it immediately

1. Do not put fingers or foreign objects in the air inlet and outlet.
 2. Do not put hair, fabric, etc. close to the item, so as not to be involved in or block the air inlet and outlet.
 3. Do not sit, lean or tilt the purifier. and do not place heavy objects on it.
 4. Do not pour liquid or throw powder and fine matter into the machine from the air outlet.
-

Usage Limits

Do not use it under the following conditions, otherwise electric shock, fire and other damage may occur:

1. The air inlet hole must be far away from the open flame appliance
2. The air purifier must be far away from high temperature and humidity places.
3. This air purifier can be used by children aged from 8 years and above.
